monarchs table

```
SELECT *  
FROM monarchs;
```

country	continent	monarch
Brunei	Asia	Hassanal Bolkiah
Oman	Asia	Qaboos bin Said al Said
Norway	Europe	Harald V
Spain	Europe	Felipe VI

All prime ministers and monarchs

```
SELECT prime_minister AS leader, country
FROM prime_ministers
UNION
SELECT monarch, country
FROM monarchs
ORDER BY country;
```

Resulting table from UNION

leader	country
Malcolm Turnbull	Australia
Hassanal Bolkiah	Brunei
Sherif Ismail	Egypt
Jack Guy Lafontant	Haiti
Narendra Modi	India
Harald V	Norway
Erna Solberg	Norway
Qaboos bin Said al Said	Oman
Antonio Costa	Portugal
Mariano Rajoy	Spain
Felipe VI	Spain
Nguyen Xuan Phuc	Vietnam

UNION ALL with leaders

```
SELECT prime_minister AS leader, country
FROM prime_ministers
UNION ALL
SELECT monarch, country
FROM monarchs
ORDER BY country
LIMIT 10;
```

JOINING DATA IN POSTGRESQL

Let's practice!

JOINING DATA IN POSTGRES SQL

INTERSECTional data science

Chester Ismay

Curriculum Lead, DataCamp

INTERSECT diagram and SQL code

```
SELECT id
FROM left_one
INTERSECT
SELECT id
FROM right_one;
```

Prime minister and president countries

```
SELECT country
FROM prime_ministers
INTERSECT
SELECT country
FROM presidents;
```

```
+-----+
| country |
+-----+
| Portugal |
| Vietnam  |
| Haiti     |
| Egypt     |
+-----+
```

INTERSECT on two fields

```
SELECT country, prime_minister AS leader
FROM prime_ministers
INTERSECT
SELECT country, president
FROM presidents;
```

```
+-----+-----+
| country | leader |
+-----+-----+
+-----+-----+
```

JOINING DATA IN POSTGRESQL

EXCEPTional

Chester Ismay

Curriculum Lead, DataCamp

Monarchs that aren't prime ministers

```
SELECT monarch, country
FROM monarchs
EXCEPT
SELECT prime_minister, country
FROM prime_ministers;
```

```
+-----+-----+
| monarch | country |
+-----+-----+
| Harald V | Norway  |
| Felipe VI | Spain   |
+-----+-----+
```

JOINING DATA IN POSTGRESQL

Let's practice!

JOINING DATA IN POSTGRESQL

Semi-joins and Anti-joins

Chester Ismay

Curriculum Lead, DataCamp

Building up to a semi-join

```
SELECT name
FROM states
WHERE indep_year < 1800;
```

```
+-----+
| name   |
+-----+
| Portugal |
| Spain   |
+-----+
```

Another step towards the semi-join

```
SELECT president, country, continent
FROM presidents;
```

president	country	continent
Abdel Fattah el-Sisi	Egypt	Africa
Marcelo Rebelo de Sousa	Portugal	Europe
Jovenel Moise	Haiti	North America
Jose Mujica	Uruguay	South America
Ellen Johnson Sirleaf	Liberia	Africa
Michelle Bachelet	Chile	South America
Tran Dai Quang	Vietnam	Asia

Finish the semi-join (an intro to subqueries)

```
SELECT president, country, continent
FROM presidents
WHERE country IN
    (SELECT name
     FROM states
     WHERE indep_year < 1800);
```

+	-----+	-----+	-----+
	president	country	continent
	-----+	-----+	-----+
	Marcelo Rebelo de Sousa	Portugal	Europe
+	-----+	-----+	-----+

An anti-join

```
SELECT president, country, continent
FROM presidents
WHERE _____ LIKE '_____'
      AND country _____ IN
      (SELECT name
       FROM states
       WHERE indep_year < 1800);
```

```
SELECT president, country, continent
FROM presidents
WHERE continent LIKE '%America'
      AND country NOT IN
      (SELECT name
       FROM states
       WHERE indep_year < 1800);
```

The result of the anti-join

```
+-----+-----+-----+
| president | country | continent |
+-----+-----+-----+
| Jovenel Moise | Haiti | North America |
| Jose Mujica | Uruguay | South America |
| Michelle Bachelet | Chile | South America |
+-----+-----+-----+
```
